Open House

2019 Street Rehabilitation Project No. ST2019-01

To: Property Owners January 4, 2019

From: City of Fridley Engineering Department

When: Tuesday, January 22, 2019

6:00 p.m. Presentation

6:30 p.m. Question and answer session

Where: Fridley Municipal Center, Council Chambers
7071 University Avenue NE, Fridley, MN

You are cordially invited to attend a presentation to review the proposed improvements for your street this summer (2019). If you have a rental property, we encourage you to inform your tenants of the open house. Please see the attached map for project location and the streets planned for rehabilitation. We will discuss the proposed construction, schedule, funding, and impacts. Information will be available regarding the estimated special assessments to benefiting properties and the associated payment options.

This project is part of the City of Fridley's Pavement Preservation Program, and resurfacing of the street is the main project goal.

Following the presentation, the project team will be available to answer your questions and obtain your input. We would like residents to share any existing roadway issues such as drainage problems or traffic safety concerns you are aware of in your neighborhood.

If you are considering having your water or sewer services repaired or having your driveway replaced, please contact us as soon as possible to discuss coordinating the work. Scheduling your repairs prior to the street project may save you money. We will send additional requests for information about your property on installed irrigation systems, pet fence or an in-home business. It is our intention to protect those installations and provide access during construction.

If you have questions before the Open House, or cannot attend in person and would like additional information about this project, please call Brandon Brodhag, Project Engineer, at (763) 238-8086
