2020 Street Rehabilitation Project

Project Update

The City of Fridley's 2020 Street Rehabilitation Project is anticipated to begin this summer. The project is currently out for bids. A start date will be available once a contractor is awarded the project mid-May. **Given the current pandemic the City will be posting all future project updates and notifications on the 2020 Street Project page at <https://www.fridleymn.gov/1492/2020-Street-Project>.**

There will be no hard-copy updates delivered for this project. Residents are encouraged to contact web-StreetProjects@fridleymn.gov and request to be added to the mailing list to receive project updates via email.

CenterPoint Energy gas main and service replacements are to precede the street rehabilitation and utility work. They anticipate beginning the week of May 18th. Residents can expect gas main installation to take approximately three weeks with a second crew following to install the services from the main to your home. Residents can anticipate some small, localized excavations in their yard near the back of curb where the service connects to the main. Following the service work, a restoration crew will restore with topsoil and seed.

Contact Information

Thank you in advance for your cooperation and patience during the project. *The City of Fridley's onsite engineer, Nic Schmidt, can be reached at (763) 572-3556 if you have any questions, or concerns.*
