

2020 Street Rehabilitation Project

Construction Update

July 20, 2020

Current Events:

It is anticipated C&L Excavating will begin construction the week of July 27th. The contractor will begin mobilizing onsite, installing traffic and erosion control early next week. As previously noted, the work will include pavement removal and replacement, concrete curb repairs, watermain and fire hydrant replacement, and miscellaneous utility maintenance. Watermain replacement is anticipated to begin the week of August 3rd and will be within Longfellow Street, Liberty Street and Ely Street. Residents within the watermain replacement areas will be placed on temporary water service. There should not be any noticeable disruption to your water service during this time. A separate notice with more details will be provided to affected residents and businesses.

Generally, crews will be focused on the watermain replacement areas for the first few weeks. The City will send additional notices as the work commences. Future project updates will be more specific and will provide important dates. Residents can anticipate a weekly update during construction, typically posted on Friday afternoon. Note work will be phased by the contractor, with substantial completion by the end of October.

Stay Connected:

As a reminder, there will be no hard-copy updates delivered for this project. The City will be posting all project updates and notifications on the 2020 Street Project page at the following location:

<https://www.fridleymn.gov/1492/2020-Street-Project>

Residents are encouraged to sign up for email alerts for current updates at

<https://www.fridleymn.gov/1354/Projects>

OR, please contact web-StreetProjects@fridleymn.gov and request to be added to the 2020 Street Project mailing list to receive project updates via email.

Resident Access

Residents will have access to their driveways during construction except when major construction events are occurring on their street. The City and Contractor will collaborate in minimizing the inconvenience to residents during construction. Please keep in mind that this type of construction may generate noise, dust and mud. Generally, it can be a disruption to the neighborhood, but we are working together toward a common goal.

Worksite Safety

Although it is tempting and interesting to watch, it is very important that residents, including children, remain out of the immediate work zone. Please remember to be safe and drive cautiously wherever you see construction workers, equipment and warning signs.

If you have an emergency, the City of Fridley's after hours contact is (763) 427-1212. This is an Anoka County Dispatch and they will direct your call.

www.fridleymn.gov

The contractor's hours will be from 7:00 a.m. to 7:00 p.m., Monday – Friday. There is potential for occasional work on Saturdays upon City approval. Additionally, the project covers a large area (2 miles). There may be times when you will not see continuous construction activity on your street. The contractor is likely in another area of the project.

Contact Information:

*Thank you in advance for your cooperation and patience during the project. The City of Fridley's onsite engineer, **Nic Schmidt**, can be reached at **(763) 572-3556** if you have any questions, or concerns.*
