

2020 Street Rehabilitation Project

Construction Update

Beginning Friday, August 7th

Temporary Mailbox Cluster:

While the contractor conducts watermain replacement in the project area, **Liberty Street** mail service will be temporarily moved to a mailbox cluster on the corner of Ashton Avenue and Liberty Street. The contractor will coordinate this temporary change and reinstatement of mail delivery to your regular mailbox with the Postal Service. The City will provide an additional notice upon regular mail delivery to your property.

Watermain Replacement:

As a reminder from the June 30th notice, watermain replacement will occur on Ely, Liberty and Longfellow Street. Generally, the project includes replacement of individual water services from the new main to the curb stop. There are cases where the curb stop will not be replaced if there are existing obstructions such as trees, fences, landscaping, etc. If a new curb stop is desired, it is the property owner's responsibility to relocate or remove any obstructions within 6-feet of the existing curb stop **before August 10th (Ely Street) and August 17th (Liberty & Longfellow)**. Please reference the June 30th notice for additional information.

Stay Connected:

The City will be posting all project updates and notifications on the 2020 Street Project page at the following location:

<https://www.fridleymn.gov/1492/2020-Street-Project>

Residents are encouraged to sign up for email alerts for current updates at

<https://www.fridleymn.gov/1354/Projects>

OR, please contact web-StreetProjects@fridleymn.gov and request to be added to the 2020 Street Project mailing list to receive project updates via email.

Resident Access

The City and Contractor will do everything possible to minimize the inconvenience to residents in the construction areas.

However, please note that this type of construction may generate noise, dust, and mud, and is generally a disruption to the area. Residents will have access to their driveways during construction except when major construction events are occurring on their street.

Worksite Safety

Although it is tempting and interesting to watch, it is very important that residents, including children, remain out of the immediate work zone. Please remember to be safe and drive cautiously wherever you see construction workers, equipment and warning signs.

If you have an emergency, the City of Fridley's after hours contact is (763) 427-1212. This is an Anoka County Dispatch and they will direct your call.

www.fridleymn.gov

The contractor's hours will be from 7:00 a.m. to 7:00 p.m., Monday – Friday. There is potential for occasional work on Saturdays upon City approval. Please also note the project covers a large area. There may be times when you will not see continuous construction activity on your street. The contractor will likely be in another area of the project.

Contact Information:

*Thank you in advance for your cooperation and patience during the project. The City of Fridley's onsite engineer, **Nic Schmidt**, can be reached at **(763) 572-3556** if you have any questions, or concerns.*
