

2020 Street Rehabilitation Project

Street Paving (Thursday 8/27), Etc.

August 26, 2020

Street Paving & Parking:

Thursday, August 27th, the Contractor will be paving the asphalt base lift on ***Ironton Street, Hugo Street, Ashton Avenue and Ely Street***. **The map on the reverse side shows the paving limits**. The Contractor will begin at 7:00 a.m., weather permitting.

We ask that you please stay off the new pavement for as long as possible. You will have access to your driveway at the end of the day. This allows for the asphalt to cure and will produce the best final product. Residents within the paving areas may park on Ruth Street, or Ruth Circle. Please access East River Road to the south via 79th Way during the day.

As a reminder, we ask that no vehicles or property be parked on project area streets during working hours (7am-7pm Mon-Fri). This gives the Contractor room to work and prevents any damage to personal property.

Street Grading:

The Contractor will continue grading the other streets within the project area in preparation for paving.

Watermain Replacement:

The Contractor has completed watermain replacement on Liberty Street and has begun reinstatement of services. Longfellow Street watermain is complete and service reinstatement will follow once quality control testing requirements are met on the new main. Note that utility work may temporarily limit driveway and street access. Your ongoing patience with this work is greatly appreciated.

Stay Connected:

The City will be posting all project updates and notifications on the 2020 Street Project page at the following location:

<https://www.fridleymn.gov/1492/2020-Street-Project>

Residents are encouraged to sign up for email alerts for current updates at

<https://www.fridleymn.gov/1354/Projects>

OR, please contact web-StreetProjects@fridleymn.gov and request to be added to the 2020 Street Project mailing list to receive project updates via email.

Resident Access

The City and Contractor will do everything possible to minimize the inconvenience to residents in the construction areas.

However, please note that this type of construction may generate noise, dust, and mud, and is generally a disruption to the area. Residents will have access to their driveways during construction except when major construction events are occurring on their street.

Worksite Safety

Although it is tempting and interesting to watch, it is very important that residents, including children, remain out of the immediate work zone. Please remember to be safe and drive cautiously wherever you see construction workers, equipment and warning signs.

If you have an emergency, the City of Fridley's after hours contact is (763) 427-1212. This is an Anoka County Dispatch and they will direct your call.

www.fridleymn.gov

The contractor's hours will be from 7:00 a.m. to 7:00 p.m., Monday – Friday. There is potential for occasional work on Saturdays upon City approval. Please also note the project covers a large area. There may be times when you will not see continuous construction activity on your street. The contractor will likely be in another area of the project.

Contact Information:

*Thank you in advance for your cooperation and patience during the project. The City of Fridley's onsite engineer, **Nic Schmidt**, can be reached at **(763) 572-3556** if you have any questions, or concerns.*
