

2019 Street Rehabilitation Project

Construction Update

September 3, 2020

Current Events:

Starting Friday, September 4th, the access to the intersection of 69th Avenue and University Avenue East Service Road will be closed permanently. Detour signage will be set up for vehicles to follow from University Avenue East Service Road through the roundabout to Locke Parkway to Rice Creek Blvd to 69th Avenue. See below for a map of the detour route.

The City will send additional notices as the work commences. Residents can anticipate a weekly update during construction, typically posted on Fridays. Note work will be phased by the contractor, with substantial completion by the end of October.

Stay Connected:

The City will be posting all project updates and notifications on the 2019 Street Project page at the following location:

<https://www.fridleymn.gov/1397/2019-Street-Project>

If you have an emergency, the City of Fridley's after hours contact is (763) 427-1212. This is an Anoka County Dispatch and they will direct your call.

www.fridleymn.gov

The contractor's hours will be from 7:00 a.m. to 7:00 p.m., Monday – Friday. There is potential for occasional work on Saturdays upon City approval. Additionally, the project covers a large area (2 miles). There may be times when you will not see continuous construction activity on your street. The contractor is likely in another area of the project.

Contact Information:

Thank you in advance for your cooperation and patience during the project. The City of Fridley's onsite engineer, **Brandon Brodhag**, can be reached at **(763) 238-8086** if you have any questions, or concerns.

Resident Access

Residents will have access to their driveways during construction except when major construction events are occurring on their street. The City and Contractor will collaborate in minimizing the inconvenience to residents during construction. Please keep in mind that this type of construction may generate noise, dust and mud. Generally, it can be a disruption to the neighborhood, but we are working together toward a common goal.

Worksite Safety

Although it is tempting and interesting to watch, it is very important that residents, including children, remain out of the immediate work zone. Please remember to be safe and drive cautiously wherever you see construction workers, equipment and warning signs.
