

# 2019 Street Rehabilitation Project

Construction Update

September 25, 2020

## Street Paving:

**Tuesday, September 29<sup>th</sup>**, the Contractor will be paving the asphalt base lift on **69<sup>th</sup> Avenue and University Avenue East Service Road**. The contractor will begin at 7:00 a.m., weather permitting. The paving operation will create times of congestion with the amount of trucks and equipment for the paving process, we ask that if possible, avoid staying off the new pavement for as long as possible. We understand that these are busy streets and access to and from these streets are important, so there will be no closure or detours during this process. The longer vehicles stay off the new pavement allows for the asphalt to cure and will produce the best final product.

## Pond Expansion Work:

The Contractor will continue grading and placing topsoil in the expanded pond near 69<sup>th</sup> Avenue and Woodcrest Baptist Church.

## Boulevard Restoration & Irrigation Repair:

Moving forward the contractor will begin restoring the areas disturbed during construction. This work will be completed prior to paving the final lift of pavement. This phase of work involves light grading, irrigation repair, placing topsoil and seeding.

## Stay Connected:

The City will be posting all project updates and notifications on the 2019 Street Project page at the following location:

<https://www.fridleymn.gov/1397/2019-Street-Project>

Residents are encouraged to sign up for email alerts for current updates at

<https://www.fridleymn.gov/1354/Projects>

OR, please contact [web-StreetProjects@fridleymn.gov](mailto:web-StreetProjects@fridleymn.gov) and request to be added to the 2019 Street Project mailing list to receive project updates via email.

## Resident Access

Residents will have access to their driveways during construction except when major construction events are occurring on their street. The City and Contractor will collaborate in minimizing the inconvenience to residents during construction. Please keep in mind that this type of construction may generate noise, dust and mud. Generally, it can be a disruption to the neighborhood, but we are working together toward a common goal.

## Worksite Safety

Although it is tempting and interesting to watch, it is very important that residents, including children, remain out of the immediate work zone. Please remember to be safe and drive cautiously wherever you see construction workers, equipment and warning signs.

***If you have an emergency, the City of Fridley's after hours contact is (763) 427-1212.*** This is an Anoka County Dispatch and they will direct your call.

***[www.fridleymn.gov](http://www.fridleymn.gov)***

*The contractor's hours will be from 7:00 a.m. to 7:00 p.m., Monday – Friday. There is potential for occasional work on Saturdays upon City approval. Additionally, the project covers a large area (2 miles). There may be times when you will not see continuous construction activity on your street. The contractor is likely in another area of the project.*

## ***Contact Information:***

*Thank you in advance for your cooperation and patience during the project. The City of Fridley's onsite engineer, **Brandon Brodhag**, can be reached at **(763) 238-8086** if you have any questions, or concerns.*
