

Street Rehabilitation Project No. ST2026-02

Construction Update

August 31st, 2026

Current Events:

The City's Contractor, Park Construction Company, is anticipated to start construction activities beginning Tuesday, September 1st.

As construction begins, residents can anticipate a weekly project update and work forecast, distributed to the project email list and posted to the City's project webpage.

Pavement Reclamation:

The Contractor is scheduled to reclaim the existing pavement along Highway 65 East Service Road and 63rd Avenue on Tuesday, September 1st. Following the pavement reclamation, the project streets noted above will be a gravel driving surface, with driveway access and local traffic flow maintained throughout.

Stay Connected:

All future project updates and notifications will be distributed via the project email list and posts to the City of Fridley's Street Rehabilitation Project No. ST2026-02 webpage at the following location:

<https://tinyurl.com/Fridley2026-02StreetProject>

Residents are encouraged to send their name and address to web-StreetProjects@fridleymn.gov and request to be added to the project email list to receive the latest project updates.

Please note that all construction scheduling is tentative, weather-dependent, and subject to change.

Construction

The Contractor's hours will be from 7:00 a.m. to 7:00 p.m., Monday-Friday. There is potential for occasional work outside of these hours upon City approval.

Please keep in mind that this type of construction may generate noise, dust, mud, and be disruptive to the area. Please be patient with the Contractor and contact us if you have any concerns we can help with.

Resident Access

The City and Contractor will work to minimize inconvenience to residents during construction. Residents can expect to have driveway access during construction except when major construction events are occurring on their street. We ask that residents, including children, remain outside the immediate work zone and exercise caution navigating the project area wherever you see workers, equipment, or warning signs.
