

Street Rehabilitation Project No. ST2026-02

Construction Update
September 25th, 2026

This week, the Contractor adjusted existing surface utilities within the roadway on previously paved streets and milled the existing pavement on Skywood Lane, 53rd Avenue, Lincoln Street, and 52nd Avenue.

Next week, the Contractor plans to install asphalt pavement along 63rd Avenue, Skywood Lane, 53rd Avenue, Lincoln Street, and 52nd Avenue.

Asphalt Paving:

On streets scheduled for asphalt paving operations, residents must refrain from parking vehicles on the roadway during and immediately following the placement of the new surface. Additionally, drivers are strictly asked to avoid sharp turning and sudden braking on the newly laid asphalt to prevent damaging the fresh pavement.

Street Parking:

In order to provide the Contractor with room to work and prevent any damage to vehicles or personal property, on-street parking in areas of active construction will be restricted, unless otherwise permitted, during working hours (7:00 am – 7:00 pm, Mon – Fri). Vehicles parked within the immediate work area during active construction may be subject to enforcement.

Please note that all construction scheduling is tentative, weather-dependent, and subject to change.

Construction

The Contractor's hours will be from 7:00 a.m. to 7:00 p.m., Monday-Friday. There is potential for occasional work outside of these hours upon City approval.

Please keep in mind that this type of construction may generate noise, dust, mud, and be disruptive to the area. Please be patient with the Contractor and contact us if you have any concerns we can help with.

Resident Access

The City and Contractor will work to minimize inconvenience to residents during construction. Residents can expect to have driveway access during construction except when major construction events are occurring on their street. We ask that residents, including children, remain outside the immediate work zone and exercise caution navigating the project area wherever you see workers, equipment, or warning signs.
