

Safe Routes to School Improvement Project

Project Update
July 24th, 2026

Construction Schedule Update:

This week, the Contractor began construction activity along 61st Avenue from the University Avenue East Service Road to 7th Street including pavement reclamation, concrete curb and sidewalk removal, and storm sewer construction.

Next week, the Contractor will continue storm sewer construction and is scheduled to install the new concrete curb & gutter and concrete driveway pavement along the north side of 61st Avenue. **Following installation, the new concrete will require up to 7 days of curing time, during which vehicle access to impacted driveways will be restricted.**

Properties impacted by concrete construction will receive a written notification prior to this work with additional information regarding construction schedule and alternate parking accommodations. Residents with restricted driveway access will be permitted to utilize on-street parking along adjacent side streets during this time.

Please note that all construction scheduling is tentative, weather-dependent, and subject to change.

Construction

The Contractor's hours will be from 7:00 a.m. to 7:00 p.m., Monday-Friday. There is potential for occasional work outside of these hours with City approval.

Please keep in mind that this type of construction may generate noise, dust, mud, and be disruptive to the area. Please be patient with the Contractor and contact us if you have any concerns we can help with.

Resident Access

During construction, the City and contractor will work to minimize inconvenience to residents. That said, residents can anticipate occasional impacts to utility services and driveway access during various phases of construction. Generally, impacts to utility services are limited to short durations (hours) while driveway access may be impacted for up to 7 days during concrete work. Properties impacted by construction activity shall receive advanced written notice of such work.

For more information on construction impacts, please see the City's Construction Information and FAQs document available on the City's project webpage:
